CURRICULUM FEEDBACK FROM STUDENTS

ACADEMIC YEAR (2017-2018)

Oriental College of Law strives to attain academic excellence. To offer informed and constructive curriculum delivery and planning, the college has taken the initiative of obtaining feedback from students and teachers, through a formal medium. This step is taken towards curriculum enrichment that will be founded on valuable inputs on both the content of the syllabus and the teaching-learning methodologies to effectively impart legal education.

The college is affiliated to the University of Mumbai and follows the syllabus designed by the University. The feedback obtained from the stakeholder's focuses on those aspects that can lead to the betterment of the curriculum, such as the overall structure of the syllabus, the materials used, and the expanse of theories covered, the application of theories into practice, and the inclusion of contemporary developments.

In the academic year 2017-18, feedback from students, teachers, alumni and law firm was collected. It was suggested by the IQAC and decided that feedback from stakeholders, other than teachers, will be taken in a graded manner, i.e., commencing from the current academic year, feedback will be obtained from First Year, adding feedback from subsequent batches as the academic years proceed from thereon. In other words, it was decided that first in the academic year 2017-18, feedback from only the First Year students will be obtained, then, in the next year, feedback from First Year and Second Year students will be received, and thus, subsequently, in the span of 5 years, graded feedback will be obtained, culminating into the incorporation of all batches by the end of the 5 years. This was done with a view to organise the action taken in a gradual and graded manner to gain progress in the curriculum delivery.

Some of the highlights of the feedback for the A.Y 2017-18 are:

Students: Most students gave positive feedback on the overall structure of the syllabus and the materials used. It can be deduced that students suggesting that there should be more inclusion of contemporary development would range relatively higher.

Students: Most students gave positive feedback on the overall structure of the syllabus and the materials used. It can be deduced that students suggesting that there should be more inclusion of contemporary development would range relatively higher.

Teachers: Most teachers gave positive feedback on the aspect of materials prescribed, assessment given, and the balance between theory and practice. Most teachers have also suggested that there should be an inclusion of contemporary developments.

Law Firms

During the academic year feedback was also collected from professional from lawfirms judges etc. Overall a positive response was there. A few indicated that there is need for better structuring of syllabus and need to integrate contemporary developments.

Alumni

Most gave positive feedback for curriculum design and delivery. They were also satisfied with the learning process. With respect to contemporary developments few indicated that there is need for the same.

The feedback was taken at the end of the academic year, both from teachers and students and from the alumni and law firms as and when it was possible to interact with them.
